

**SHENANDOAH VALLEY ELECTRIC COOPERATIVE
MT. CRAWFORD, VIRGINIA**

**SCHEDULE Y-9 (UNBUNDLED)
YARD LIGHTING SERVICE
175-WATT AND 400-WATT**

AVAILABILITY

Available to all member/customers of the Shenandoah Valley Electric Cooperative for the purpose of providing rural homes, schools, churches, camps, businesses, etc. with an outside modern overhead light. All fixtures will be Mercury-Vapor or Sodium-Vapor, equipped with a photoelectric cell to provide dusk-to-dawn service and will be connected ahead of the meter. Final decision as to the type installed will rest with the Cooperative.

SERVICE AGREEMENT

- A. Upon application, the Cooperative will install and maintain an outside overhead light on the premises of the member/customer. The member/customer must agree to keep the light for at least 12 months.
- B. The member/customer shall notify the Cooperative when fixture fails to operate. Fixture will be serviced within 48 hours of such notification under normal conditions.
- C. The member/customer will be billed for the yard light each billing period and such charges added to the regular electric bill at the following rates:

		<u>175-Watt or Equivalent</u>				
Number of Lights	Approx. Lumens	<u>Mercury</u>	Approx. Lumens	<u>Sodium</u>	Rate Per Unit Per Month	
		Monthly KWH Per Unit		Monthly KWH Per Unit		
1-3 Lights	7,000	70	8,550	47	\$ 8.62	
4-10 Lights	7,000	70	8,550	47	\$ 8.18	
11 or More	7,000	70	8,550	47	\$ 7.80	

		<u>400-Watt or Equivalent</u>		
Any Number Of Lights	20,000	150		\$15.08

SCHEDULE Y-9 (UNBUNDLED)

ADJUSTMENT CLAUSE

Each kilowatt hour is subject to adjustment for changes in Wholesale Power Costs as per the Cooperative's Wholesale Power Cost Adjustment Clause, Schedule WPA.

INSTALLATION AGREEMENT

- A. The yard light will normally be installed on the Cooperative's existing facilities where 120-volt service is available or on a member/customer's meter pole which has been approved by the Cooperative.
- B. If additional facilities are required for installation of the light or lights, the Cooperative will provide and install these at no cost to the member/customer, provided the cost of the above-described facilities does not exceed four (4) times the anticipated, continuing annual revenue of each fixture as per its monthly rate.

The Cooperative reserves the right to require all costs in excess of the 4-to-1 ratio be paid prior to construction. An estimated cost, provided by SVEC, would be made under these conditions.

The facilities will remain the property of, and will be maintained and replaced as becomes necessary by the Cooperative.
